

Name: _____ **Array Models for Multiplication**

Solve each multiplication equation by making an array of blocks, drawing the array, and finding the product of each equation.

1. 5 rows with 2 in each row _____ x _____ = _____

2. 3 rows with 3 columns _____ x _____ = _____

3. 4 rows with 3 columns _____ x _____ = _____

4. 3 rows with 2 in each column _____ x _____ = _____

5. 6 rows with 5 columns _____ x _____ = _____

Picture

The drawing area consists of a vertical blue line on the left and four horizontal blue lines on the right, creating a space for drawing array models. The horizontal lines are positioned to the right of the vertical line, and they are spaced to correspond with the five multiplication problems listed on the left.
